Jun Kuang

I go to Buchanan High School and I have gotten A's and B's throughout High School. I am learning how to code at the Center for Advanced Research and Technology.

Experiences

Web Development Showcase
Clovis - California
2024

At the Center for Advanced Research and Technology (CART), my partner and I created a short presentation for the public to see what we have done so far in the first semester at CART.

Western Dino Howse Website
Clovis - California
2023

Western Dino House was a fast food restaurant website that I worked on with a partner. We came up with the layout and used HTML and CSS to create the website. Some part of the website also contained JavaScript.

Volunteering Work
Clovis - California
2023

During summer, I participated at CART Summer Academy in the engineering lab. We helped out with teaching the kids how to assemble a simple plane and rocket.
